

Factsheet

Requirements

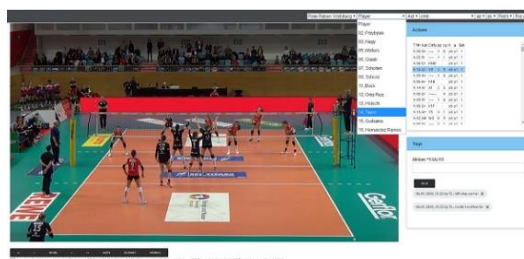

- Video in mp4 format
- Scoutfile in dvw format
- Internet connection
- A valid email address

How it works

- Upload your video and scoutfile to the database
- Create a new game directly from the scoutfile
- Manage and view all games in an easy-to-use database
- Start using the videoplayer and the statistic tools!

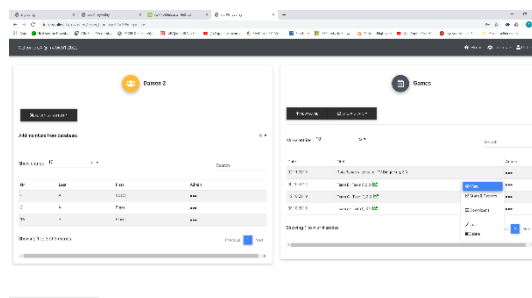

Simple online video player

- Compatible with all modern browsers
- Use with any tablet, computer or laptop
- Easy-to-use filters and controls
- Use text-tags to describe actions and views

Powerful administration tools

- Create and manage your teams and members
- Assign different member types with specific access rights (admin, coach, player)
- Create and manage games
- Connect your dropbox account to the videoplayer (optionally, dropbox api-key required)
- Check member activity (views and downloads)

helpful statistics and charts

- Get a complete report view of each game
- Follow the development of your team by action
- Follow the development of your members by action
